Topic: Regularized Linear Regression (Ridge, Lasso, Elastic, Early Stopping)

Author: Chiagoziem Cyriacus Ugoh

Positive Aspects:

1. Very throughout and well written abstract.

2. Efficient and easy to navigate through the paper.

3. Explained to the highest quality.

4. Proper use of valid references.

Negative Aspects:

1. Lack of index terms.

2. Lack of citation on the equations.

Remarks: Overall, it is an excellent seminar paper that is academic and well written with the reader's comfort in mind. The paper covers every relevant aspect of the topic.

The author just has to include the index terms and citations on the equations
